Information found on the Ebon Skull:

-There leader is someone called Lord Admoreth whom is the new Lich Lord of the Skull.

-Azreal has some connection with the Ebon Skull. Its possible he may be one of them.

-Azreal said Umbra was his home. If he with the Skull then could Umbra belong to the Ebon Skull?

-Unknown people wandering about Umbra asking visitors to leave or they would starve the citizens.

-Darrien Church must be a member of the Skull since he treated Ultima like a slave. In turn Ultima wore a white robe just like Darmug who admitted to being a slave of the Skull.

-Of the people who are known to be slaves they have white robes, does this mean all with the dull white robes are slaves to the Ebon Skull? There must be a way to tell the followers of the Skull apart. I've yet to find it tho.

-A man who confronted me acctually said the town was run by the order. His hair was bright red as fire. I have my proof. Now to just find there headquarters.

-It also seems there slaves are quite loyal. They question all who seem new.

-Izlude Vargas has joined

the Ebon Skull  
ranks...he can only be  
considered my enemy now.  
-A man named Draven  
seeming is with the Ebon  
Skull I hear.
